**TheraPlate Brand Ambassador Sydney Collier Becomes  
2015 USEF Para Equestrian Dressage National Champion**

*Katy, Texas (November 6, 2015)*— The Official Therapy Plate of the U.S. Equestrian Federation, TheraPlate Revolution Therapy Platforms, is proud to congratulate TheraPlate Brand Ambassador Sydney Collier for her latest victories at the 2015 USEF Para Equestrian Dressage National Championships, presented by Houston Dressage Society, on October 30- November 1 in Katy, Texas.

This year has been extremely successful for Collier, who relies on the TheraPlate to keep herself and her horses in prime condition to achieve outstanding performances. In July, Collier rewrote history as the first-ever Para Dressage Individual Gold medalist at the North American Junior Young Rider Championships (NAJRYC). At the Para Equestrian Dressage National

Championships, she rode away from Texas with two national titles under her shadbelly.

Collier's National Championship success came on her familiar partner Wentworth and a newer member to her team, Scampano. "I am beyond proud and thankful to both my boys, Wentworth and Scampi, for their performance at the National Para Dressage Championships. Both were fabulous in their Freestyles. Wentworth earned nearly 70%, and Scampi, in his Freestyle debut, earned better than 68%. Both also earned their National Championship titles in the 1\* and 3\* High Performance Divisions," Collier said, adding, "Onward and upward to the Rio Para Olympics!"

Collier praises TheraPlate Revolution Therapy Platforms for contributing to her ability to excel in dressage. "Many days my horses and I spend our time together on the TheraPlate. We could not have had the success we have had in the ring without TheraPlate on our team."

TheraPlate is a rehabilitation and therapy system that increases circulation, bone strength, and muscle mass, while also reducing swelling and inflammation and promoting rapid healing and pain relief.

Collier has experienced the healing effects of TheraPlate on herself, and has seen it work on her horses. At age seven, Collier was diagnosed with Wyburn-Mason Syndrome, a rare congenital birth defect. Despite multiple surgeries and a stroke that left her virtually blind, she never stopped riding, earning the title of USEF Junior Equestrian of the Year in 2014.

Keeping Wentworth (who also had a beautiful CPEDI3\* Team Test at Texas) and Scampano (who won the 1b Division of his first CPEDI 1\*) in top shape has been a privilege for the therapy platforms named the Official Therapy Plate of the United States Equestrian Federation (USEF). The company is proud to sponsor talented and motivated equestrians like Collier.

TheraPlate's innovative Therapy Platforms use dynamic movement that can improve and maximize performance for horses and humans— simply by standing on them. TheraPlate allows horses to return to competition sooner by reducing healing time on existing injuries, and also reduces the chances of incurring new injuries as muscular and connected ligaments and tendons become more fit.
