TheraPlate, Official Therapy Plate of the USEF, Returns to Sponsor 2016 Adequan Global Dressage Festival

Wellington, FL (January 8, 2016) — The richest dressage circuit in the world and the therapy platform widely praised as the “best money ever spent” for treatment and prevention of injury have united during the fifth annual Adequan Global Dressage Festival. The 2016 dressage competition series, running from January 13- April 2 in Wellington, Florida, welcomes TheraPlate Revolution as a returning show sponsor. To celebrate ideal soundness, fitness, performance, and strength in horse and rider teams, TheraPlate will present its TheraPlate Peak Performance Award during every CDI week throughout the show series.

The TheraPlate Peak Performance Award is a ribbon and a beautiful commemorative silver plate that will serve as a lasting reminder of the 2016

Adequan Global Dressage Festival experience for winning equestrian pairs. TheraPlate Revolution Therapy Platforms, based in Weatherford, Texas, will present the award to a horse that exemplifies TheraPlate's core priorities of soundness, fitness, peak performance, and strength. TheraPlate is devoted to helping horses and people reach the health and body condition needed to deliver peak performances, and is happy to have the opportunity to congratulate those who demonstrate this level of excellence.

TheraPlate therapy platforms are popular in all equestrian disciplines because of their ability to promote healing across a spectrum of issues, from tendon and stifle injuries to founder. The platforms help reduce injuries and improve the body condition of horses. All horses need to do to experience the TheraPlate advantage is simply stand on the platform.

TheraPlate helps to manage a wide variety of injury, soundness and pain issues. Through consistent use over time, benefits include increased circulation, increased bone strength, increased muscle mass, reduced swelling and inflammation, rapid healing, and reduced pain. TheraPlate is effective on horses, humans, and other animals. With the outstanding number of leading equestrians who never go without TheraPlate— including Pan American Games Team Gold Medalist Heather Blitz, dressage Olympian Adrienne Lyle, Olympian and celebrated dressage coach Debbie McDonald, and USEF Junior Equestrian of the Year Sydney Collier— it's no wonder why TheraPlate is the Official Therapy Plate of the United States Equestrian Federation (USEF).

TheraPlate Revolution is proud to be a part of recognizing and rewarding ideal soundness, fitness, performance, and strength— and helping educate equestrians on how to achieve those conditions. Look for TheraPlate at the 2016 Adequan Global Dressage Festival with the TheraPlate Peak Performance Award.
